## SUMMARY

Results-oriented hands-on team player experienced in supporting real-time streaming financial market data consumers connecting to on-premises data centers with AWS cloud infrastructure. Managed all phases of Software Development Life Cycle (SDLC) from business requirements to production releases using Agile methodologies. Experienced in representing business needs, in leading global technology and operations teams to deliver projects successfully and to comply with regional regulatory requirements.

## EXPERIENCE

### Senior Business Analyst / DevOps Release Coordinator

**Gresham Technologies** **April 2017 - February 2026, Federal Reserve Bank of New York on-site**

- Streamlined QA, Production deployment processes for market data streaming price application in Linux client/server and Oracle environments.
- Supported DevOps with any issues from on-premises pricing servers during deployments of market data microservices to Openshift4, AWS .
- Developed shell scripts in bash, korn and used Excel Power Queries/Pivot tables to parse/analyze log files to debug data load issues.
- Tested all deployment steps and health-check scripts to ensure post-deployment environment readiness.
- Mapped legacy relational database pricing schemas to Rest API payload data format in Json.
- Defined REST API end points and data payload (JSON) for fixed income market data pricing services using Open API Specification (Swagger).
- Maintained deployment runbooks, documented key aspects of implementation to socialize with stakeholders using Confluence, Visio.
- Generated actionable user stories in Jira from high-level project requirements (Epics) collaborating with Product Owner and Scrum Master.

### Senior Business Analyst

**EmblemHealth** **March 2014 - July 2016, New York, NY**

- Documented Requirements, created and executed Test Plans for stakeholder sign off.
- Prepared PPM Resource Management module PPM RM rollout materials and provided training.
- Designed report metrics on performance, productivity and actual resource use.
- Developed use cases and test plans from requirements and lead UAT.
- Maintained portal web site with up-to-date Project Stage Gate templates.
- Developed comprehensive runbooks for PPM RM processes, standardizing procedures across 3 teams resulting in reduction of onboarding time.

### Business Systems Analyst

**AIG** **May 2012 - December 2013, Jersey City, NJ**

- Developed Requirements for HP PPM and Business Objects (BO) enhancement requests.
- Facilitated weekly status meetings to communicate priorities and to monitor progress.
- Liaised with home office, offshore development teams on requirements clarification and execution of UAT test plans.
- Published BO Quick Reference Guide documentation for Self Service Training.
- Monitored HP PPM and Business Objects (BO) environments proactively on a daily basis to identify and address recurring issues, reducing unplanned system outages by 18% over 12 months using automated alert tools and KPI dashboards.

### Senior Program Manager

**AIG Travel Guard Worldwide** **June 2009 - April 2012, Jersey City, NJ**

- Developed UAT test plan template for all phases of the SDLC.
- Managed enhancement requests to minimize cost implications and risks to project deliverables.
- Managed body of work supporting e-business operations.
- Deployed of global travel insurance through distribution channels and system enhancements.
- Liaised between profit centers, operations and systems and distribution partners.
- Conducted project closures: stakeholder feedback, gaps (expected delivery dates), lessons learned.

### Implementation Engineer

**Solomon Page** **02/2006 - 10/2007, Asset Control New York**

- Re-designed the engineer's foundation toolkit for post sales consultants.
- Assisted clients during initial implementation phase of Price Capture project at JP Morgan Chase, TX.
- Developed a proof of concept reference & price data consolidation application for Asset Control Solutions team to demonstrate to clients.

### Lead Consultant

**Capgemini** **October 2007 - April 2009, Fidelity Investments Boston, MA on-site**

- Upgraded client's legacy Investment Reference Database, tools to a supported version of AC server.
- Processed vendor feeds: Standard & Poor, Moody's, Reuters and internal fixed income data.

### Consulting Engineer

**OpenPages, Inc** **April 2004 - December 2005, Waltham, MA**

- Collaborated on customer-specific Sarbanes-Oxley SO Section 302 and 404 certification processes.
- Used SOX Express: the best J2EE-based SO Compliance Solution platform.
- Launched financial control compliance notification solutions with SOX-specific alerts.
- Enabled planning for downstream action items.

### Senior Software Engineer

**Thomson Reuters** **June 2001 - November 2002, Boston, MA**

- Upgraded entitlement JDBC/JSP/Servlet system to be J2EE 1.2 compliant.
- Re-engineered a set of FirstCall Research Host system functionality using Java, XML, and C#.
- Developed automation scripting solutions in Python and Shell to accelerate deployment workflows, reducing manual intervention by 40% over a 12-month project across three major product releases.

### Senior Software / Consulting Engineer

**PlanetCAD** **February 1993 - June 2001, Boston, MA**

- Project lead for Mechanical Computer Aided Design (CAD)-quality assessment tool on four UNIX platforms.
- Application development lead for CAD Fasteners selection design modules implemented at Hyundai Motor Co., Sikorsky Aircraft, General Dynamics/Electric Boat.
- Training and distribution of tasks to contractors.
- Integrated third party libraries into product.

### Software Engineer

**Dassault Systèmes** **August 1989 - August 1992, Suresnes, France and Paramus, NJ**

- Released the new Computer-Aided Design module (Sheet Metal Design) for IBM/Dassault.
- Developed software evaluation and testing procedures based on IBM quality software standards.
- Coordinated development tasks between teams in France and U.S. as an assignee in France.

## EDUCATION

### MS, Mechanical/Manufacturing Engineering

University of Massachusetts, Amherst • Amherst • 1988

### BS, Mechanical Engineering

University of Massachusetts Amherst • Amherst • 1981

### Baccalaureat D, mathematics and science

Lycee Paul Eluard, France • France • 1981

## PUBLICATIONS

### Rules for an Expert Fixturing System on a CAD Screen using Flexible Fixtures

Journal of Intelligent Manufacturing • 1990

### A Framework for a Rule-based Expert Fixturing System for Face Milling Surfaces on a CAD system using Flexible Fixtures

Journal of Manufacturing Systems • 1989

## SKILLS

Linux, Bash, Korn shell scripting, Excel Power query, Pivot tables, Postman,Visio, Confluence, Jira, vs code, RHEL, Ubuntu, SQL, VS code, sharepoint, git, plantuml, obsidian

English, French, Korean
