Business Analyst

PROFESSIONAL SUMMARY

Senior Business Analyst with extensive experience supporting enterprise technology initiatives across financial services, insurance, and market-data environments. Proven track record eliciting, analyzing, documenting, and validating business and system requirements while partnering with business, operations, technology, infrastructure, compliance, and executive stakeholders. Experienced across SDLC and Agile delivery, workflow analysis, process improvement, QA/UAT coordination, production readiness, stakeholder communication, risk assessment, and technology modernization initiatives. Strong background translating business needs into actionable requirements and supporting successful implementation of complex enterprise solutions.

WORK EXPERIENCE

GRESHAM

Senior Business Analyst / DevOps Release Coordinator

Apr 2017 – Feb 2026 | Federal Reserve Bank of New York | On-site

- Supported enterprise modernization initiatives involving requirements analysis, workflow review, platform transformation, testing, and implementation support.
- Elicited, analyzed, documented, and validated business and system requirements while partnering with business, technology, operations, and compliance stakeholders.
- Supported system-change initiatives from requirements through implementation, including workflow analysis, data-load redesign, testing coordination, UAT support, and stakeholder communication.
- Partnered with stakeholders to evaluate business needs, assess risks and impacts, validate proposed solutions, and support delivery across SDLC activities.
- Supported Oracle-based data-distribution models using master and consumer-specific views for downstream applications, reporting platforms, and business consumers.
- Assisted cloud-migration and REST API transition validation by comparing legacy Oracle-based data-access patterns with emerging service-based delivery models.
- Supported semiannual disaster-recovery failover and switchover exercises for mission-critical pricing platforms, validating business continuity, data integrity, and operational readiness.
- Supported enterprise modernization initiatives involving requirements analysis, workflow review, platform transformation, testing, and implementation support.
- Elicited, analyzed, documented, and validated business and system requirements while partnering with business, technology, operations, and compliance stakeholders.
- Supported system-change initiatives from requirements through implementation, including workflow analysis, data-load redesign, testing coordination, UAT support, and stakeholder communication.
- Partnered with stakeholders to evaluate business needs, assess risks and impacts, validate proposed solutions, and support delivery across SDLC activities.

- Supported semiannual disaster-recovery failover and switchover exercises for mission-critical pricing platforms, validating business continuity, data integrity, and operational readiness.

EMBLEMHEALTH

Senior Business Analyst

Jan 2015 – Jan 2016 | New York, NY

- Supported business analysis, reporting, workflow, and operational process improvement activities for healthcare insurance systems.
- Worked with business stakeholders to analyze requirements, document workflows, support testing, and improve reporting and operational visibility.

AIG PROPERTY CASUALTY

Senior Business Analyst / Program Manager

Jan 2012 – Jan 2015 | Jersey City, NJ

- Supported HP PPM portfolio management workflows including demand intake, approval workflows, project generation, staffing profiles, allocation pools, timesheets, and approval notifications.
- Gathered requirements, configured workflows, created UAT scenarios, supported testing, and coordinated with stakeholders across PMO and business teams.

AIG TRAVEL GUARD

Senior Business Analyst

Jan 2009 – Jan 2012 | New York, NY

- Analyzed and tested insurance premium/rating workflows using origin, destination, age, gender, duration, coverage limits, and market-specific business rules.
- Supported rollout of travel insurance premium tables and certificate-of-insurance generation workflows for international markets including Korea, Australia, APAC, and the Middle East.

SOLOMON PAGE

Implementation Engineer

Jan 2006 – Jan 2008 | Asset Control

- Supported ACPlus / Asset Control financial data platform implementations involving reference data, pricing data, time series data, security master creation, and golden-copy data management.
- Built proof-of-concept solutions demonstrating normalization, consolidation, cleansing, and distribution of vendor data to downstream trading, portfolio management, regulatory, and risk platforms.

CAPGEMINI

Lead Consultant / Implementation Engineer

Jan 2008 – Jan 2009 | Fidelity Investments

- Processed and validated financial ratings and fixed-income data feeds from vendors including Standard & Poor's, Moody's, Reuters, and internal Fidelity sources.
- Supported financial data management, reference data, pricing data, and downstream data-consumption workflows.

OPENPAGES

Consulting Engineer

Jan 2004 – Jan 2005 | Boston, MA

- Configured SOX Express workflows for Sarbanes-Oxley Section 302/404 documentation, testing, approval, and compliance processes.
- Supported governance, risk, compliance, workflow configuration, and enterprise software implementation activities.

PLANETCAD

Software Engineer

Jan 1999 – Jan 2004 | Boston, MA

- Developed and supported engineering software and CAD/CAM-related automation solutions.
- Worked with technical teams on product functionality, customer requirements, implementation support, and software delivery.

DASSAULT SYSTÈMES

Software Engineer / CAD-CAM Consultant

Jan 1989 – Jan 1999 | France / New Jersey

- Developed and implemented CAD/CAM and engineering automation solutions using CATIA, StoneRule, FORTRAN, C/C++, UNIX, AIX, Sun, IBM mainframe, and DB2.
- Delivered manufacturing, aerospace, automotive, and defense engineering solutions for Hyundai Motor Company, General Dynamics Electric Boat, Sikorsky Aircraft, and Bell Helicopter.

EDUCATION

MS, Mechanical/Manufacturing Engineering

University of Massachusetts, Amherst

BS, Mechanical Engineering

University of Massachusetts, Amherst

Baccalaureat D, Mathematics and Science

Lycée Paul Éluard, France

PUBLICATIONS

- Rules for an Expert Fixturing System on a CAD Screen using Flexible Fixtures. Journal of Intelligent Manufacturing, March 1990.
- A Framework for a Rule-based Expert Fixturing System for Face Milling Surfaces on a CAD System using Flexible Fixtures. Journal of Manufacturing Systems, March 1989.

SKILLS

Agile, Application Support, AWS, Business Analysis, Confluence, Excel Power Query, Financial Data, Git, HP PPM, Insurance Systems, Jira, JSON, Linux, Market Data, OpenAPI/Swagger, Oracle, Postman, Production Readiness, Reference Data, Release Coordination, Requirements Analysis, REST API, SDLC, ServiceNow, UAT, Visio, Workflow Analysis

Core Competencies: Application Support, Business Analysis, Financial Data Platforms, Financial Systems, Insurance Systems, Oracle Data Mapping, Production Readiness, QA/UAT, Release Coordination, REST API Validation, ServiceNow Workflows
