PROFESSIONAL SUMMARY

Results-oriented hands-on team player experienced in supporting real-time streaming fixed-income and FX market data consumers connecting to on-premises data centers with AWS cloud infrastructure. Managed all phases of Software Development Life Cycle (SDLC) from business requirements to production releases using Agile methodologies. Experienced in representing business needs, in leading global technology and operations teams to deliver projects successfully and to comply with regional regulatory requirements.

WORK EXPERIENCE

GRESHAM

Senior Business Analyst / DevOps Release Coordinator

Apr 2017 – Feb 2026 | Federal Reserve Bank of New York | On-site

- Supported REST API integration efforts including JSON payload validation using Postman, API endpoint definition, and OpenAPI/Swagger documentation.
- Assisted cloud-migration and REST API transition validation by comparing legacy Oracle-based data-access patterns with emerging service-based delivery models.
- Supported Oracle-based data-distribution models using master and consumer-specific views for downstream applications, trading platforms, and business consumers.
- Streamlined QA, Production deployment processes for market data streaming price application in Linux client/server and Oracle environments.
- Generated actionable user stories in Jira from high-level project requirements (Epics) collaborating with Product Owner and Scrum Master.
- Supported DevOps with any issues from on-premises Linux pricing servers during deployments of market data application to Openshift4, AWS
- Tested all deployment steps and health-check scripts to ensure post-deployment environment readiness.
- Maintained deployment runbooks, documented key aspects of implementation to socialize with stakeholders using JIRA, Confluence, Visio.
- Supported semiannual disaster-recovery failover and switchover exercises for mission-critical pricing platforms, validating business continuity, data integrity, and operational readiness.

EMBLEMHEALTH

Senior Business Analyst

Jan 2015 – Jan 2016 | New York, NY

- Supported business analysis, reporting, workflow, and operational process improvement activities for healthcare insurance systems.
- Worked with business stakeholders to analyze requirements, document workflows, support testing, and improve reporting and operational visibility.

AIG PROPERTY CASUALTY

Senior Business Analyst

Jan 2012 – Jan 2015 | Jersey City, NJ

- Supported HP PPM portfolio management workflows including demand intake, approval workflows, project generation, staffing profiles, allocation pools, timesheets, and approval notifications.
- Gathered requirements, configured workflows, created UAT scenarios, supported testing, and coordinated with stakeholders across PMO and business teams.

AIG TRAVEL GUARD

Program Manager/Senior Business Analyst

Jan 2009 – Jan 2012 | New York, NY

- Analyzed and tested insurance premium/rating workflows using origin, destination, age, gender, duration, coverage limits, and market-specific business rules.
- Supported rollout of travel insurance premium tables and certificate-of-insurance generation workflows for international markets including Korea, Australia, APAC, and the Middle East.

CAPGEMINI

Lead Consultant / Implementation Engineer

Jan 2008 – Jan 2009 | Fidelity Investments

- Processed and validated financial ratings and fixed-income data feeds from vendors including Standard & Poor's, Moody's, Reuters, and internal Fidelity sources.
- Supported financial data management, reference data, pricing data, and downstream data-consumption workflows.
- Supported ACPlus / Asset Control financial data platform implementations involving reference data, pricing data, time series data, security master creation, and golden-copy data management.
- Built proof-of-concept solutions demonstrating normalization, consolidation, cleansing, and distribution of vendor data to downstream trading, portfolio management, regulatory, and risk platforms.

EDUCATION

MS, Mechanical/Manufacturing Engineering, University of Massachusetts, Amherst

BS, Mechanical Engineering, University of Massachusetts, Amherst

PUBLICATIONS

- Rules for an Expert Fixturing System on a CAD Screen using Flexible Fixtures. Journal of Intelligent Manufacturing.
- A Framework for a Rule-based Expert Fixturing System for Face Milling Surfaces on a CAD System using Flexible Fixtures. Journal of Manufacturing Systems.
